

Story Telling with Role Play

On 30th May 2019, a role play was conducted in the Soft Skills classes by **Ms. Aditi Singhal** for ICFAI Business School – Orientation Program.

The students were given few random words and were asked to frame and enact a moral story out of it, portraying each word to be a character. The objective of this activity was to engage the participants in brain storming and hone their creativity, dialogue delivery, communication and team building skills.
