Speaker- Cecily Anthony

Unlike lectures, where a speaker will address the audience, seminars are led by someone acting as a mediator. This allows for opening up the floor for discussion, hearing about other ideas on the topic to encourage conversation. Such Seminars are organized on weekly basis. Cecily Anthony presented her slides on the role and responsibility of teacher to contribute in effective and quality Education. She rightly said " Quality of a Nation directly depends on the quality of its citizens and the Quality lies on the Quality of Education which the citizens are getting.
