

Celebration of World Ozone Day – September 15, 2017

Venue- B.Ed Classroom

Participants- Anupama K.S, Ekta Chauhan and Nityanand Pandey

Organizer- Prof. Sarita Negi

Students of ICFAI Education School, The ICFAI University, Dehradun celebrated World Ozone Day on 15th September 2017 in the form of Seminar, Poster making and Slogan writing.

World Ozone Day is an annual event observed on 16th September every year for positive environmental action designated by United Nations. Anupama K.S presented few slides on significance of Ozone layer, Process of Ozone depletion, Causes and effects of Ozone depletion etc. It was followed by a group discussion initiated by Prof. Sarita Negi regarding the reason of Ozone hole in Antarctic region though the amount of Chloro fluoro carbons is more in United States in North America. Also there was a discussion on how does global warming and green house effect contribute to Ozone layer depletion. Nityanand Pandey, B.Ed student focused on the alarming rate of ozone layer depletion and how we could save it from further depletion. He told the formulae of splitting of Ozone gas when it comes in contact with Ultra Violet rays gives Oxygen gas and Oxide.
