

Presentation of Working Models on National Science Day

Science has been a very important part of the Indian Education system. Since ancient era, many scientists, astrologers, mathematicians, astronomers have contributed to their research and inventions. Thus, National Science Day is celebrated on 28th February every year to appreciate the importance of Science in our day to day life. Students celebrated National Science Day with the Theme “Science and Technology for Specially Abled Persons.” The working Models prepared by them showcased students’ creativity and knowledge and their interest relating to the subject.
