

## Placements 2019

The placement activity that any management institute undertakes is a reflection of the participation of the institute in building the careers of its students. To ensure this, IBS has set up the Career Management Center (CMC) which looks after the placement activities of its students throughout the year. IBS believes that the entire placements exercise is a collaborative effort between IBS and the students. While it provides guidance and support through an extensive network with potential employers, the students have the responsibility of putting in the maximum possible efforts to obtain suitable placements. IBS students are trained to be well-rounded professionals, and the placement record is adequate testimony to it. IBS also provides training in soft skills, group discussions and mock interviews for final placements.

IBS Campuses have been achieving good placements year on year. Placements for the Class of 2019 have been continuing on a very encouraging note. Like previous years; this year also IBS will be achieving near 100% placements. Students have received quality placements in terms of numbers and CTC from sectors like BFSI (Banking, Financial Service, and Insurance), IT/ITES, Consulting, Infra/Telecom/Real Estate, Media & Research and Manufacturing.

Prominent recruiters include Aditya Birla, Byjus, Airtel, Amazon, Capital First, Deloitte, EY, Federal Bank, Flipkart, Genpact, HDFC, Hero, HCL Tech, IMRB International, ITC, ICICI, IndusInd, ICRA, JP Morgan Chase, Kotak Mahindra, KPMG, Nestle, Phillips, PNB Housing, PWC, Reliance, Satguru Travels, Swiggy, TCS, Wipro, Zomato Media, Zycus Infotech, etc with a relatively higher package.

## Alumni Speak...

ICFAI Business School (IBS) is an incredible platform that allows its students to understand, hone their best skills and prepare them well for future. I received my MBA from IBS in 2010 and I owe a lot to this institution. It's not only an

institution that builds deeper knowledge base but also emphasize well on creativity.

Recently, I was given an opportunity to deliver a lecture on "The Power of Communication" at IBS - Gurgaon and while interacting with students and taking live Q&A, I could see impressive perspectives flowing in. The students were participative and made the entire session engaging. The faculty at IBS is highly experienced and extremely humble which makes the entire atmosphere perfect for learning and development.

In spite of a successful career in corporate, I see myself growing at IBS, I look forward to have more engaging and power packed sessions with the students.

MBA is not just a degree but it's everlasting experience; Heavy workloads and high expectations are just part of the pressure cooker for first year with added placements for second year. But the number of activities & events like .. Zeal, SAP, Rotaract Club etc. keeps you sane.

Heartfelt gratitude to the faculty and visiting professors who helped us wade through and supporting cast of solid friends and batchmates who continuously challenge and support you. IBS experience has made me stronger and more prepared to take control of life and career. It's still feel that time should go back to those days which are imprinted in my heart.

Two years at IBS Ahmedabad has polished and refined my overall personality and has equipped me with the skills, knowledge and analytical mind-set

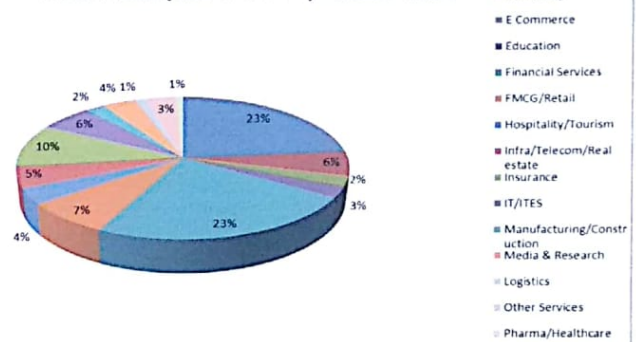

required to identify and solve problems, effectively communicate their solutions and sufficient practical exposure to evolve action plans and implement them. I am a happy and successful working professional today, climbing the ladder of my career path. Today, I call myself a Proud Alumni of my B School and love visiting my alma mater frequently for various interactive sessions with the junior batches.

## Alumni Speak...

My two years in IBS Kolkata were the key catalyst in the journey of my transformation from a student to a corporate professional. The pedagogy with its strong focus on honing the soft skills which are essential to survive & grow in the

corporate world offered me a diverse yet holistic approach towards the field of business and management. Various extracurricular activities made the learning fun and also taught me how to learn outside the classrooms. Summer-internships and other projects which come aplenty to budding managers helped me experience and manage the real life situations. It also taught me how to be prepared all the time and think out of the box, and be creative. I was lucky to get mentored by some of the faculties who went out of their way to make learning easy for me. I landed my first job from the campus and 11 years on, I am still with the same organization where I continue to use my learning from IBSK.

It's not a B-school, rather a platform which can help an aspiring manager to learn nuances of the field and jumpstart their career – only if one has the passion and willingness to work hard.

Are you an entrepreneur in the making? Then investing your time in a B-school would be the smartest choice for you. MBA at IBS has surely given me a good foundation of knowledge and practical exposure

to succeed as an entrepreneur. While business management degree is not required to start your own business, it surely has helped me stand out from the crowd and face day to day operational situations with much confidence. So it is important for young aspirants to choose the right B-school which will equip them with knowledge, skills and practical exposure to discover their endless career path options. "Don't count the things you do, do the things that count" Zig Ziglar-mantra to be remembered when you enter a B-school and thereafter.

IBS Mumbai gave me new skills and knowledge that turbocharged my career. While MBA students often set their sights on a job in a specialized field, the

hard and soft skills acquired were indeed transferable to myriad other roles which I have taken in my career till date. The education at IBS Mumbai instilled crucial skills like organizing, self-discipline and the ability to complete tasks from start to finish. In other words, it helped me mould into a more professional individual.
